

Did You Know...

4 Back to School Safety Tips

1

Slow down!

Children crossing the street on their way to and from school can quickly become distracted. Obey all speed limits.

2

Watch for school busses

Avoid following buses too closely and be prepared to stop. When a school bus's lights are flashing, do not pass it.

3

Obey crossing guards

If you approach a set of lights and the light turns green, but the crossing guard still says stop, obey the crossing guard rather than the traffic signal. There could be a child crossing the street who you are unaware of.

4

Avoid jaywalking

There are an increased number of distractions on the road, including school busses, drivers, and pedestrians. It is safest to cross streets only at designated areas.
